Sprays a flat 320° fan pattern

- · 10/32" triple-lead threads for easy 2-turn installation
- Ideal for greenhouses, young trees, and small landscaped areas
- · For propagation, place Jets head to head for maximum coverage
- -35° down spray keeps more water in the container, covering the entire root zone while helping to prevent overspray
- Ideal for agriculture, nurseries, greenhouses, mature fruit trees, ornamental trees, shrubs, flowerbeds and landscapes
- · 10/32" triple-lead threads for easy 2-turn installation
- Recommended for use with the Nursery Elbow Stake

- · Charachterized by 12 short, blunt teeth
- Ideal for High-Density citrus planting
- Sprays 12 down streams for a filled-in 360° pattern
- 10/32" triple-lead threads for easy 2-turn installation
- Available in all flow rates
- -45° down spray keeps more water in the container, covering the entire root zone while helping prevent overspray in windy conditions
- Ideal for agriculture, nurseries, greenhouses, mature fruit trees, ornamental trees, shrubs, flowerbeds and landscapes
- · 10/32" triple-lead threads for easy 2-turn installation
- · Recommended for use with the Nursery Elbow Stake
- Sprays two sets of 360° down streams
- 10/32" triple-lead threads for easy 2-turn installation
- · Ideal for tree farms and nurseries · Excellent for B & B trees when used to water from the tree's trunk to the outer root zone
- · Recommended for use with the Nursery Clip Assembly
