

What's In The PREMIUM KIT?

Mechanical "Egg" Water Timer (Qty 1)
For timed watering, turn dial clockwise and set from 15 to 120 minutes. Water shuts off after selected minutes have elapsed. For manual watering, turn the dial counterclockwise to MANUAL ON. Manually return the dial to the OFF position when done.

Back Flow Prevention Valve (Qty 1)
Helps to prevent water from syphoning backwards.

50 PSI Pressure Regulator (Qty 1)
Regulates water pressure at the faucet to 50 PSI, and helps prevent blowouts of Mirco Sprays, 1/4-in connectors and 1/2-in fittings.

1/2-in Poly Faucet Hose Fitting (Qty 1)
Connects 1/2-in Poly Tubing to any outdoor faucet or garden hose.

1/2-in Poly Tubing 100-ft Roll (Qty 1)
This commercial grade 1/2-in Poly Tubing is the main water supply line. It is made to withstand freezing and other extreme weather conditions.

1/2-in Poly Tee Fitting (Qty 1)
Allows you to run the 1/2-in Poly Tubing in opposing directions from the main line.

Black Landscape Stake Assembly (Qty 10)
13-in Stake with interchangeable 165°/180°/320° micro spray patterns, an On/Off Valve for flexibility, and a Violet Flow Controller, which keeps water flow to 10 GPH, regardless of water pressure.

8-in Stake Extension (Qty 2)
The Stake Extension increases the height of the Micro Spray on the Stake Assembly. Ideal for use with taller plants.

1/4-in Vinyl Tubing 10-ft Coil (Qty 1)
Use this 10-ft coil of flexible, commercial grade vinyl to extend the Stake Assemblies further from the 1/2-in Poly or to run a water supply to Micro Spray Pot Stakes for potted plants.

Micro Spray Pot Stake (Qty 2)
This 165° half circle down-spray Pot Stake has an adjustable spray radius up to 2-ft and uses 3.5 to 7.6 GPH. The Pot Stake is ideal for deck and patio potted plants.

1/2-in Poly Support Stake (Qty 6)
Support Stakes secure the 1/2-in Poly Tubing to the ground.

All-In-One Hole Punch Tool (Qty 1)
Automatically centers for punching holes in 1/2-in Poly Tubing. Supports all 1/4-in fittings for easier installation. Includes a cleaning tool for Micro Sprays and Flow Controllers.

Goof Plugs (Qty 4)
Plugs accidental and unused punched holes in the 1/2-in Poly Tubing.

1/2-in Poly End Crimper (Qty 2)
Use the End Crimper to end the 1/2-in Poly Tubing water supply line. Can be easily removed to Winterize.

1/4-in Coupler (Qty 5) Elbow (Qty 1) Tee (Qty 1)
Use 1/4-in Couplers to connect 1/4-in Vinyl to 1/2-in Poly. Use the Elbow in tight 90° corners and use the Tee to run 1/4-in Vinyl Tubing in two opposing directions.

1/2-in Poly Coupling (Qty 1)
Use the Coupling to repair accidental damage or cuts to the 1/2-in Poly Tubing or to extend your system. *With a minimum water pressure of 40 PSI, connect up to 200-ft of additional 1/2-in Poly Tubing and up to 40 additional Stake Assemblies.

* This Kit is Expandable

Green/Orange Swap Top (Qty 10)

320° Fan / 180° Fan / 165° Fan: The 320° fan is perfect for use in small garden areas (5 to 6-ft spray). The 180° and 165° fans are ideal for use next to walkways and walls (4 to 5-ft spray).

Red/Yellow Swap Top (Qty 1)

360° Rose / 90° Fan / Center Strip Swap Top: 360° down-spray is ideal for roses (4 to 6-ft spray). The 90° Fan is ideal in corners (4 to 5-ft spray). The Center Strip is perfect for narrow areas (4 to 5-ft spray).

Large Circle Spinner (Qty 3)

360° Large Full Circle Spinner: Ideal for use in larger areas (10 to 12-ft spray).

Blue Winged (Qty 1)

90° Quarter Circle Fan Micro Spray: Ideal for use in corners (4 to 5-ft spray).

Orange Winged (Qty 1)

180° Half Circle Fan Micro Spray: Ideal for use along shrubs and edges (4 to 5-ft spray).
