

RESIDENTIAL & COMMERCIAL IRRIGATION
Built on Innovation®

- 01 **Save time:** Manage irrigation from anywhere around the world
- 02 **Save money:** Avoid costly on-site visits by making schedule changes from anywhere
- 03 **Predictive Watering™ adjustments:** Integrate local weather data to make water-saving scheduling adjustments

PRO-HC OUTDOOR PROFESSIONAL-GRADE WI-FI CONTROLLER WITH HYDRAWISE WEB-BASED SOFTWARE

Manage your Pro-HC irrigation controller from anywhere worldwide using your smart device or web browser with Hydrowise cloud software. Predictive Watering adjusts schedules based on temperature forecast, rainfall probability, wind speed, and humidity to provide maximum water savings while keeping landscapes healthy and beautiful. Add a simple-to-install flow meter and set up automatic notifications to alert you of broken pipes or sprinklers.

Hydrawise cloud software is a user-friendly water management tool. Homeowners can use Predictive Watering adjustments to lower their water bills. Hydrowise software enables professional contractors to conduct in-depth water management while monitoring the piping and electrical systems. The professional cloud-based irrigation software works for everyone!

The Pro-HC controller is EPA WaterSense-approved when connected to Hydrowise web-based software.

PRO-HC CONTROLLER FEATURES & SPECIFICATIONS

Key Benefits

- Easy-to-use touchscreen interface
- Wi-Fi enabled for simple and fast connection to the internet
- 6-, 12-, and 24-station fixed models
- Dedicated master valve/pump start
- Large terminal strips
- Built-in milliamp sensor
- 2 sensor ports
- Warranty: 2 years

Models

Plastic Indoor

Height: 8¼"
Width: 9½"
Depth: 3½"

Plastic Outdoor

Height: 9"
Width: 10"
Depth: 4"

HC-075-FLOW
(¾" MNPT coupling)
Height: 3½"
Length: 9½"
Depth: 3½"
Weight: 2.1 lbs

HC-100-FLOW
(1" MNPT coupling)
Height: 3¾"
Length: 10¼"
Depth: 3½"
Weight: 3.1 lbs

HC-150-FLOW
(1½" MNPT coupling)
Height: 6¼"
Length: 16⅞"
Depth: 4⅞"
Weight: 14.5 lbs

HC-200-FLOW
(2" MNPT coupling)
Height: 6¼"
Length: 17½"
Depth: 4⅞"
Weight: 16.3 lbs

Advanced Features

- **Predictive Watering Adjustments:** Daily schedule adjustments (based on local weather data) monitor past, current, and forecast temperature, rainfall, humidity, and wind speed. This allows for adjustments of watering times and schedules to balance water savings with water efficiency for plants.
- **Wiring Detection and Alerts:** The Pro-HC controller continuously monitors the electrical current flowing to solenoid valves. If the current is too high or too low, Hydrowise will alert you and tell you which valve is not working properly. This allows you to fix a faulty valve before damage is done to the landscape.
- **Advanced Sensor Ports:** Two general-purpose sensor ports can be used for many different functions. Sensor ports work with Hunter HC Flow Meters for flow monitoring and alerts, as well as Hunter Klik and standard rain and soil sensors to stop irrigation. The sensor ports can also start an irrigation cycle. This allows you to create custom start times based on sensor readings.
- **Built to Last:** The Pro-HC features a double-door design, which makes it extremely durable in all weather conditions. It also includes large terminal strips for easy installation of solenoid wiring.

PRO-HC

Model	Description
PHC-600i	Fixed 6-station, plastic indoor wall mount
PHC-600	Fixed 6-station, plastic outdoor wall mount
PHC-1200i	Fixed 12-station, plastic indoor wall mount
PHC-1200	Fixed 12-station, plastic outdoor wall mount
PHC-2400i	Fixed 24-station, plastic indoor wall mount
PHC-2400	Fixed 24-station, plastic outdoor wall mount

HC FLOW METER - OPTIONS

Models	Description
HC-075-FLOW	HC Flow Meter with ¾" MNPT thread
HC-100-FLOW	HC Flow Meter with 1" MNPT thread
HC-150-FLOW	HC Flow Meter with 1½" MNPT thread
HC-200-FLOW	HC Flow Meter with 2" MNPT thread
