

Permanent & Temporary Controller Cable

Designed for installation on virtually any controller, the Permanent & Temporary Controller Cables simplify installation of a TRC Irrigation Remotes Universal receiver. Compatible with both TRC Commander and Sidekick receivers, the Permanent & Temporary Controller Cables are available in 12, 24, and 32 valve configurations. The Permanent Controller Cable (PCC) allows the user to mount a universal receiver to the side of a controller enclosure, wall, or any other vertical surface, allowing the user to have a permanent controller access point, if access is not available. TRC Irrigation Remotes cables are designed to provide the irrigation professional with years of trouble free service.
